

Provider Communication

Subject: Disease Management Update	Priority: High
Date: September 22, 2005	Message ID: ACSBNR09222005_1

Dear Providers,

GBHC PCPs will receive a monthly fee for case management services for each member assigned to the practice. This aggregate average payment of \$2.00 per member per month will be made to the PCP for each member on the Monthly Enrollment Roster sent to the PCP. If a PCP chooses not to enroll in the Disease Management program, DM members will not be assigned to that practice. If a member opts in to the DM program but is assigned to a provider who is not participating in the DM program, the member will be reassigned to a DM participating provider.

Thank you for your continued participation in the Georgia Medicaid and PeachCare for Kids Programs.

Sincerely,

Department of Community Health
